

# MRSA-NATOR™

BY  CRES COR SPORT®

AW-SF-2M

Interior designed for even temperature distribution throughout, all the way to the center of the towels.

## Benefits:

- When used at recommended temperatures, this unit drastically reduces the risk of contamination from MRSA and other infectious viruses and bacteria
- Warms and Holds standard or larger bath towels as well as other items needed to keep warm, safe, and dry
- (2) shelves per cavity – (4) shelves per full size unit
- Warms a full load of towels in 4 hours or less
- No fans or blowers means quiet, noise-free operation
- Radiant heat for even temperature all the way to the center - not just the outer towels
- Compatible with standard 120V, 20 Amp outlet
- Stainless Steel Construction

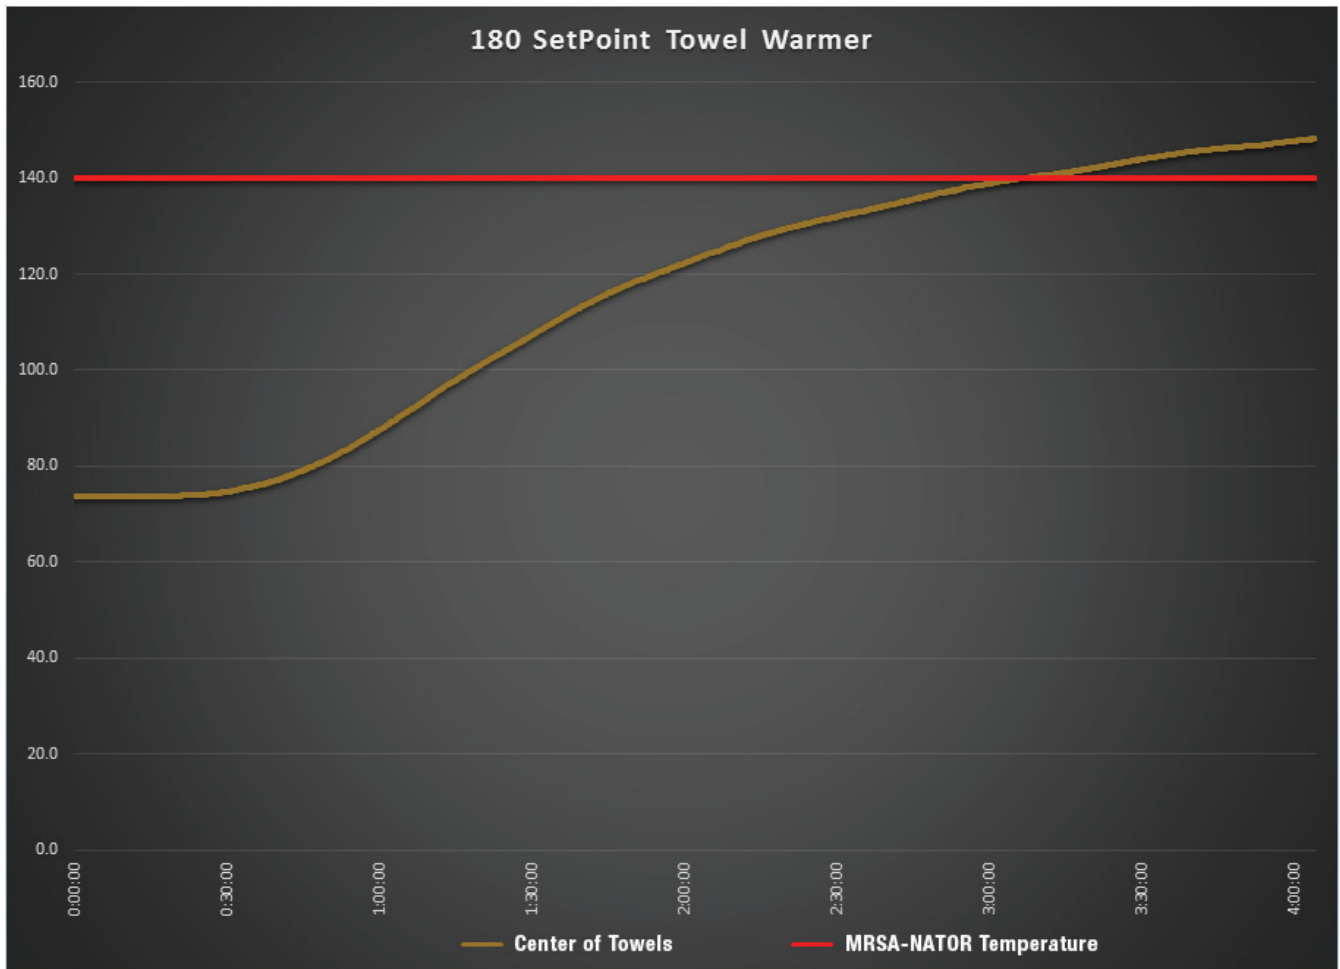

## What is MRSA?

- MRSA stands for Methicillin-resistant Staphylococcus aureus (MRSA).
- It is a bacterium that causes infections in different parts of the body. It's tougher to treat than most strains of staph because it's resistant to commonly used antibiotics.
- Extremely common in athletic environments
- It can be killed with heat, certain disinfectants, and UV light.
- Safe zone temperature to kill MRSA is over 140°F (60°C).

## FULL-SIZE

TOWELS			DIM "A"	DIM "B"	DIM "C"
CAP	SIZE		WIDTH	DEPTH	HEIGHT
50	24 x 48	IN	27	32	76-1/2
	610 x 1220	MM	686	813	1943

### PROPER LOADING

Stack folded towels on shelves, making sure to keep an **AIR GAP** between the towels and the sides/bottom of cavity.

### IMPROPER LOADING

Do not remove shelves.  
Do not allow towels to contact sides and bottom of cavity.
